

Primary Webinar: Digital Portfolios for Online Assessment & Feedback

Through the exploration of practical examples and activities using a variety of digital platforms, this webinar will examine the potential of using digital portfolios to support and enhance online assessment and feedback practices.

Throughout the webinar we will explore how a variety of digital platform features can be used to create engaging, meaningful, and inclusive assessment-based activities that will support pupils' digital portfolio development.

We will also address some frequently asked questions by teachers and answer attendees' questions in this area live throughout the webinar.
